For many years my annual report has focused on the many programs and services offered by PSRC. This year I want to focus on how we make an impact.

**PSRC Objectives:**
- To connect people to the resources they need to make informed decisions and achieve their goals. Each person has a different goal so we personalize our assistance. One may be seeking transportation, another wants to sign up for Medicare, and another is helping a recently widowed parent move to a new living situation. Our Support & Guidance staff gives at least one resource to every single person who contacts us for help with the unique situation he/she is facing at that time. Often this involves linking to local services, increasing awareness of new resources such as Access Princeton or Shredfest, or collaborating in events such as our Memory Screening and Healthcare Directives Days. Another aspect of providing information is through education. Our newsletter, programs and classes offer exposure to expertise on a broad range of relevant issues and subjects, and we update our website with new resources on a regular basis. Our Fall Conference, Health Fair and twice-monthly Lunch & Learn programs also provide in-depth and important information on a wide range of topics. Last year the conference focused on technology that supports aging in place. An average of 60 people contact PSRC each week for assistance. 175 attended the conference and 365 the Health Fair.
- To provide support and guidance for those facing life transitions. Professionally facilitated groups, family meetings and one-to-one contacts provide skilled and peer support for individuals and families. Many groups are focused on a particular issue (caregiving, aging parents, widows, bereavement, transition to retirement). Family and individual consultations occur in the office, at home and in care facilities. An average of 175 people attend 16 support groups each week.
- To provide opportunities for peer support and social connection. Building community occurs in every activity at PSRC, combatting loneliness and isolation and sharing common interests. Program members get to know each other, make new friendships and often extend those connections outside

**PSRC also hosts several large events each year that are open to the community at large, including the annual Holiday Party, Chinese New Year, our student art show, Fall Conference, trips, Special Speaker Series, and this year, the Calo art show. Single-session events (movies, TED Talks) are a great entry point for people new to the area. One person was heard to comment at the BBQ in June “I didn’t know any of these people before tonight, but I am having a great time.” Large events draw from 30 to 200 people.

- To create opportunities for lifelong learning. The Evergreen Forum continues to grow—there were 24 classes each semester this year. TED Talks also remain popular, and there is demand for a second memoir writing class. Some enroll in an art class for the first time, while others seek to build on existing skills. The Special Speaker Series featuring experts such as the New York Times Science Times Editor, adds to people’s understanding of a wide range of issues. Nearly 600 people were enrolled in each semester of Evergreen Forum and over 215 enrolled in other ongoing classes.
- To offer opportunities for people to be active, healthy and engaged in the community. We offer a range of exercise programs, classes, and groups that address all aspects of wellness: physical, emotional, social, cognitive, spiritual and feeling a sense of purpose. New programs are introduced each year and old ones are discontinued. Ideas from participants are welcome and many activities are led by volunteers. An average of 1300 people attend these programs weekly. Almost 450 volunteers helped with events, instruction, office work and other tasks this year. More than 90 GrandPals read with children in Princeton’s elementary schools. Many programs fulfill more than one objective: A trip to an art exhibition educates and expands opportunities for friendship; Home-Friends and GrandPals provide opportunities to be purposeful while building intergenerational friendships, helping a person remain in his or her own home, or encouraging children as they gain confidence in reading.

The feedback we receive from participants in all programs is very positive; we are often stopped by people who want to say how much they enjoyed a speaker, or a class, or how PSRC plays an important role in their lives. The gratitude expressed to us is heart-warming; we, too, are grateful to be a part of this community.

**NEW GROUP FORMING TO CONNECT WOMEN IN RETIREMENT**
Friday, September 18 at 10:30 a.m.
Changes in circumstances sometimes lead to a loss or diminishing of social connections. For example, when women retire they often experience a shrinking of social networks that were available through relationships at work. As women age, established friends may move away or become less available due to family demands or health issues. Such changes can present many of the same challenges and needs as those that face newcomers to a community, even for long-time members of the local community. This group is designed to help women form new connections in the wider community.

Come to this first meeting and meet other women looking for engaging activities that stimulate personal growth. The emphasis will be on inclusive, participatory discussion to facilitate interactions.

Open to women of all backgrounds. Come try it out! Call 609.924.7108 if you’re interested. We will meet on the third Friday of each month. Suzanne Patterson Building

## Ongoing Programs

### New Class Fee Schedule

The quarters will start on the first day of October, January and April, and July, which means each class will run for approximately 12 weeks. The cost will be $72/quarter for Princeton residents and $96/quarter for non-residents; some exceptions apply. The new quarterly system will decrease paperwork and simplify the enrollment process.

- Financial assistance is available for those who find the fee to be a hardship. Talk to Susan Hoskins, Executive Director, to apply.
- The length of class terms will vary depending on things like holidays, snow days and vacation schedules, but start dates will remain constant.

(Please note, this does not apply to Evergreen Forum classes.)

Pre-registration for classes is required. You may register in person, by mail-in registration, or phone with a credit card. **We accept Visa & Master Card.** Payment must accompany registration. Many classes welcome newcomers mid-session. Thank you for your understanding as we try to keep pace with the operating costs of PSRC.

*Will resume in October.*
The Oxford English Dictionary defines Sandwich Generation as “A generation of people, typically in their thirties or forties, responsible for bringing up their own children and for the care of their aging parents.” According to the Pew Research Center, 1 out of every 8 Americans age 40 to 60 is raising a child and caring for a parent at home. And those numbers are only expected to rise as our population ages.

At PSRC we are acutely aware of the challenges many children of aging parents face. Attendance in our Children of Aging Parents Group (CAPS) is rising, and more adult children are reaching out to our Support and Guidance Office at Spruce Circle. These calls usually involve people wanting to enable their parent(s) to remain in their own homes as independently and safely as possible. If a parent has recently been discharged from the hospital/rehab, how can they (their children) ensure everything is in place if they do not live nearby? If a parent has recently stopped driving, how can they get to the grocery store and doctor’s appointments? If a parent does have to move, there are many questions regarding what is available and what would be best for that person’s needs.

Learning what services are available in the area can be daunting for anyone, especially someone managing a career, children and aging parents. Princeton was the first city in New Jersey to win “Age Friendly” designation by the World Health Organization because of the abundance of services available to seniors. PSRC can help inform and navigate all parties through this process. We assist family members who call us from all over the county, country and even overseas. We offer consultations in the office, at home, over the phone and even via Skype. If you are calling about parents outside of the area, we can help you create a plan - what to focus on and what resources to look for in your own area. No question is too big or too small, so please feel comfortable to call us or stop on over, we are always happy to help.

| The CARE ACT, passed by the New Jersey legislature in November 2014, requires hospitals to: |
| 1) Identify a designated family caregiver; |
| 2) Notify the caregiver when a patient is moved or discharged; and |
| 3) Provide adequate instruction for the care of the patient following discharge. |
| 4) 22% of family caregivers in New Jersey report performing medical and nursing tasks for a loved one. |

PSRC NEEDS PRINCETON RESIDENTS!

You may recall that Princeton achieved Age Friendly Community (AFC) status last year. Now we need your help.

The AFC Task Group will be conducting focus groups to learn from you what we are doing well for aging adults, and where we can improve.

PSRC will host two focus groups:

Thursday, September 24 from 10:00 a.m. to 12 noon
Tuesday, September 29 from 7:00 to 9:00 p.m.

If you are interested in joining one of these sessions, please contact Susan Hoskins at 609.924.7108 or shoskins@princetonsenior.org.

Participants will be selected from the applicants.

THANK YOU!
