PSRC Announces Dr. Drew Dyson’s appointment as Executive Director

The Board of Trustees of the Princeton Senior Resource Center (PSRC) is pleased to announce Dr. Drew A. Dyson's appointment as PSRC’s next Executive Director. Dr. Dyson will assume the role full-time on March 19. Making the announcement, Board Chair Mike Kenny reflected the enthusiasm of the entire Board, “Drew’s considerable leadership experience, which is visionary, strategic, and compassionate, distinguishes him as the individual we need to lead PSRC forward. He has the unanimous support of our Board. We cannot wait for him to get started.”

The announcement comes after a comprehensive four-month search process by a committee chaired by trustee Liz Charbonneau that included trustees Kate Hall, Joe Maida, and Josh Lichtblau. The committee reviewed over 60 applicants during a highly competitive recruitment process. In their recommendation to the Board, the committee echoed Kenny’s support, “We sought a candidate who would propel PSRC into an exciting, new, robust chapter of service to our senior community. Drew is that leader.”

Dyson has spent the last 18 years developing his leadership in a variety of ecclesial positions within the Methodist Church, including appointments as a pastor and seminary faculty member. He has served most recently as District Superintendent, Raritan Valley District of the Greater NJ Annual Conference overseeing administrative leadership and program development for 63 churches across central New Jersey. Dyson grew up in Princeton, where his father was Pastor of Princeton United Methodist Church in the 1970s. He returned to study at Princeton Theological Seminary earning a Master of Divinity degree in 2000 and a PhD in Education and Formation in 2011. Dyson looks forward to using his leadership experience to make a positive impact, stating, “I am excited about the possibilities ahead and look forward to continuing the story of PSRC’s work within the greater Princeton community.” He credits his parents, both of whom worked with aging communities, as instilling in him an early respect for seniors.

Dyson takes over from retiring Executive Director, Susan Hoskins, who led PSRC for 17 ½ years, guiding its growth and creating a distinguished center for service and lifelong learning that is recognized across the state. She leaves a PSRC that is a strong, diverse, vital resource for older adults in the greater Princeton community.
FOR YOUR INFORMATION

Social Security Changes in 2019¹

**Benefits increase:** Social Security recipients will get a 2.8 percent cost-of-living adjustment (COLA) in monthly benefits beginning in January. The average individual retired Social Security beneficiary is expected to see a monthly benefit jump from $1,422 to $1,461. The estimated monthly increase is $39, or $468 a year.

**Earnings limit climbs:** If you are between ages 62 and 66 or 67 (full retirement age) and working while receiving monthly Social Security benefits, you may now earn up to $17,640 before the Social Security Administration will deduct $1 for every $2 you earn. In the year you turn your full retirement age, the earnings limit will be $46,920 before the agency will deduct $1 for every $3 you earn until the month you reach full retirement age. (For those born between 1943 and 1954, full retirement age is 66. It increases by two months for each year after until 67.)

**Tax cap grows:** Taxes on workers’ wages finance Social Security. Workers pay 6.2 percent of their earnings to fund the benefit (employers pay the same). Next year, the maximum amount of earnings subject to the Social Security tax will increase from $128,400 to $132,900.

**Work credit earnings rise:** The earnings required for one work credit — that is, three months of Social Security coverage — edges up from $1,320 to $1,360 for 2019. Credits are the building blocks the Social Security Administration uses to determine whether you qualify for benefits. You can earn up to four credits a year if you earn at least $5,440. In most cases, to qualify for benefits you’ll need a minimum of 40 credits.

**Supplemental Security Income up:** Beneficiaries receiving Supplemental Security Income (SSI) will see an increase in their monthly payment. SSI is a federal program that aids the aged, blind, and others with disabilities who have little or no income by providing them funds for food, clothing, and shelter. The individual amount grows $21 a month, from $750 to $771. The amount for couples rises $32, from $1,125 to $1,157.

**View monthly benefit:** To check the amount of your 2019 Social Security monthly benefit, go to SSA.gov, and, if you already have a My Social Security account, sign in and check your account’s message center. To create a My Social Security account, go to www.socialsecurity.gov/myaccount. So far, about 35 million beneficiaries and non-beneficiaries have set up My Social Security accounts.

I Didn’t Download That!

When we explore people’s ailing laptops in the Tech Lab, we usually look at the list of installed applications and ask about those that we’re not familiar with. Sometimes, the owners don’t know where the software came from, and they’re certain they didn’t download it themselves.

But chances are they probably did, though not intentionally.

It’s easy to accidentally download a program you didn't want or need. For example, the screenshot on the right is from a website that features printer “drivers,” which are programs your computer needs to make your printer—well—print. So, which button do I click?

Download 1 installs the Firefox browser. Nice, but I didn’t want it. Download 2 installs a “cleaning” program called Mackeeper. Nope. Download 3 installs a MacBook virus scanner. Nope.

The drivers I want are listed in the blue dotted oval thingy. Not obvious. Another “gotcha” is the Adobe Flash Player update notice. Some web pages use Flash to create special effects, such as animations, and when Adobe issues an update to Flash, a dialog will pop up like the one on the left. But when you click UPDATE NOW, you’ll also download the Google Chrome browser and Google toolbar unless you uncheck the little box that I kindly magnified for you. Chrome is a nice browser but downloading it (again) extends the interruption from the Flash update. The Google Toolbar just junks up your browser toolbar, which is already confusing enough. So, if you wonder how the Google Toolbar started showing up in your browser, I just told you. You downloaded it.

If you need help finding third-party software on the internet, or removing software you don’t want, just stop by the PSRC Technology Lab on Tuesdays and Wednesdays from 1:00 to 4:00 p.m. or Fridays from 10:00 a.m. until 1:00 p.m.

1 Yes, I ended this sentence with a preposition.
2 Many websites are moving away from Flash, which can carry malware exploits.
3 Unless you like it, in which case it’s simply wonderful.

SUPPORT & GUIDANCE

Program Highlight: HOMEFRIENDS

Do you know a senior who would enjoy some companionship? Someone to accompany him or her on a walk, read and sort mail, exchange stories about life experiences, or pursue mutually shared interests? If so, a HomeFriends volunteer is ready and waiting. HomeFriends is a friendly visitor program for home-based seniors and people with disabilities in the greater Princeton area. It was created by PSRC in 1987, in response to a growing need for companionship and assistance. Volunteers visit for an hour or two each week.

A shining example of the HomeFriends program involves a volunteer who was linked with a senior residing in her own home. In the beginning, they spent their time primarily getting to know each other and talking about their respective families, interests, and life experiences. As time went on their activities broadened to include, taking walks, running short errands, light house cleaning, and assistance with completing forms.

In the past, the senior had attended the PSRC sponsored Let’s Talk group, but her growing reluctance to engage with a larger group was preventing her from returning to the group. Recognizing another opportunity to support her HomeFriend, the volunteer offered to accompany her to the meetings. Today, they are regular attendees of the Let’s Talk group.

As time has passed, what started as a tentative HomeFriends volunteer relationship has evolved into a genuine friendship. When the senior underwent an operation for a knee replacement, her friend accompanied her to the hospital, stayed during the operation and, when she returned home, stayed with her for a couple of days. Today, the closeness of their relationship is evidenced by the easy, light-hearted way in which they interact and discuss future trips to the library and decisions on the films they will watch. And on a nice summer day, it is not unusual to see them taking a walk or sitting on a park bench enjoying each other’s company.

The HomeFriends Coordinator, Dave Roussell, MSW, LSW, is a licensed social worker. If you are interested in hearing more about the HomeFriends program or know someone who would benefit from the companionship of a HomeFriend, please contact Dave at 609.252.2362. There is no cost for this program.

In *My Stroke of Luck*, doctor-turned-actor Diane Barnes recounts her experience of realizing she was having a stroke, her path to recovery, and more. It’s a heartfelt and humorous look at love, family, and overcoming seemingly insurmountable obstacles. See this amazing one-woman show.

“A very honest, thoughtful, & insightful dramatic solo performance by a busy single mother/M.D. who can’t believe she has suffered a possible stroke. Very entertaining & informative, she will discuss distressing clinical signs that she tried to ignore but the audience should not! A must see!”
—Clifford Young’s review (5 stars)

“Diane Barnes is a terrific performer. The story of her stroke is not only compelling, but also informative and uplifting. The dual threads of a doctor muscling through her symptoms, in spite of knowing what was happening, and the mother pushing to be responsible for her sons worked to make this solo performance thrilling.”
—5 star review

“Really brilliant and poignant. An amazing glimpse of what a stroke patient goes through and what happens after they leave the hospital. It was witty, funny, emotional, intense, powerful. What a journey she makes. I highly recommend this one-woman show! Diane Barnes is incredible!”

And to our individual donors who along with our sponsors make our programs & services possible.

Thank you to all who attended Susan Hoskins’ farewell open house on December 20 and to all of those who stopped by during her last month to wish her well in her next chapter.

Did you know you can support PSRC all year long by bringing us your McCaffrey’s receipts? They can be up to 3 months old. PSRC receives a percentage of the total receipts.
